Question:

How do I get BUILDER access to other sites?

Answer:

Your Point of Contact (POC) should have completed a User Request form with the sites that you should have access to. If you need access to other bases please have your POC submit a new and updated User Request form with this information.

Please see the attached User Request Forms and the embedded links for additional assistance.

Note: Builder Access Request Form v9.2 is for access to USAF Builder only.
