I am getting an error message stating "certificates are expired"?

Paul Paisley - 2020-08-28 - Comments (0) - Frequently Asked Questions

Question:

I am getting an error message stating my certificates are expired?

Answer:

This because the DoD certificates installed on your computer are out of date. Install updated DoD root certificates by going to: https://militarycac.com/dodcerts.htm, downloading the latest root certificates (using InstallRoot utility), and running the utility to install the DoD root certificates.
