What if the building is going to get Demolished, Transferred or Vacant?

Paul Paisley - 2020-08-31 - [Comments \(0\)](#) - [Frequently Asked Questions](#)

Question:

What if the building is going to be demolished, transferred, or vacant?

Answer:

If the building's "Current Status" changes from Active to any of the following:

- Demolished,
- To be acquired,
- To be built,
- To be demolished,
- To be transferred, or
- Vacant

You can designate this change by selecting the building, going to the General Info tab on the right-side pane of the page and selecting from the drop down menu under Current Status.

See attachment for more information of where this drop-down menu is located.

The screenshot shows the BUILDER software interface. On the left is a tree view of the building inventory. The main pane on the right is titled 'General Info' and contains various fields for building information. A red box highlights the 'Current Status' dropdown menu, which is currently set to 'Active'. The dropdown list shows the following options: Active, Demolished, To be acquired, To be built, To be demolished, To be transferred, and Vacant. Other visible fields include 'Building No.' (000), 'Building Name' (WHSE SUP AND EQUIP BSE), 'Building Use' (442758 - WAREHOUSE SUPPLY AND EQUIPMENT BASE), 'Building Type', 'Mission Dependency Index' (MDI: 13), 'Status' (with checkboxes for Historic, Child-Occupied Facility, High Security, and Additional Access), 'Condition' (with a table of metrics: BCI, BFI, BPI, FCI), and 'Functionality' (with a table of issues: Location, Text Wrap Mockup, Test Assess, Cultural Resources, Building Size and Configuration).
