How do I get a list of Components with their corresponding UoM (Units of Measure) in BUILDER?

Paul Paisley - 2020-09-01 - [Comments \(0\)](#) - [Frequently Asked Questions](#)

Question:

How do I get a list of components with their corresponding UoM in BUILDER?

Answer:

Depending on the BUILDER instance utilized, there may be reports that can generate this data. For example, look under Reports->Custom for a report with the name like "Final 03 Component-Section Report."

If a report like this does not exist in your instance of BUILDER, contact BUILDER Support at the following email: SMSSupport@erdc.dren.mil

Please see [Units of Measurement Reference List](#) for a more comprehensive explanation of the units of measurement.
