## What's New in BUILDER 3.3

Paul Paisley - 2019-04-03 - [Comments \(0\)](#) - [BUILDER](#)

### Functionality Improvements

- Functionality Assessment questions allow image attachment.
- BuilderRED (BRED) now supports functionality assessments.

### Account Management/Support

- Users can now reset their own passwords when they've been forgotten. The account's email address must be set before this feature can be used.

### Login Improvements

- Users no longer need to configure their browser's popup blocker settings to exempt BUILDER.
