2025 SMS Summit

2025-07-10 - Mark Fisher - [Comments \(0\)](#) - [General](#)

We would like to thank all the panelists, speakers, attendees, and host of this year's SMS (Virtual) Summit.

We had some wonderful speakers, including keynote addresses by Mark Sinder, the Deputy Assistant Secretary of Defense for Infrastructure Modernization & Resilience, and by Dr. Andrew Nelson, our ERDC-CERL Director.

This was followed by Matt Walters, the SMS TCX Chief, delivering the latest news and updates regarding ESMS.

The rest of the morning and most of the afternoon was filled with live demos of the ESMS application, the Field application, as well as an overview of the Utilities domain.

Following the live ESMS Demos, a walk-through was provided of our LMS training and support site and we got to view the latest in ESMS documentation.

We finished up the day with a presentation from the SMS Innovation Lab that covered research projects and initiatives including robotics, modeling, and AI integration.

The materials and videos from the SMS Summit will be included in the upcoming FY25 Q4 Newsletter. Subscribe to [SMS News](#) or the [SMS Newsletter](#) on the SMS Helpdesk to stay up to date on all things SMS.
