E-SMS Sandbox 1.10.620 - 1.10.624 Release Notes

2025-12-02 - Brandon Athey - Comments (0) - E-SMS Release Notes

Release Date: 12/02/2025

E-SMS Version 1.10.620

Bug Fixes

Assess

- Large .jpg and .tif image files for assessments with a default maximum size of 100 MB now upload and save successfully.

Documents

- On the “Documents” tab, typing now filters tag options. After selecting a tag, the “Tag Adder” field stays blank until the user starts typing another tag.

Home

- When a session times out, users are now redirected to the E-SMS login page.
- A tooltip now appears when a user hovers over the “Announcements” button.

Inventory

- Asset search results for all selected domains now appear on the “Search Assets” page.
- The “Edit Attributes” popup now features selectable checkboxes to simplify editing.
- All group detail pages now retain the group’s original name when users cancel edits.
- The “Site” field now auto-populates the site name from the group detail page on the “Create Group” popup.
- Failed rollup notifications now appear in red.
- 100 is now the maximum Mission Dependency Index score for Assets.
- Site rollups now complete successfully.
- For component details, RSL and RDL metric values now display as 0 instead of “none.”

Permissions

- Users with Site Administrator permissions can now view and edit items on the Work page.
- Users with Site Administrator permissions can now view and edit items on the Documents page.
- Users with Inventory Create, Inventory Update, or Inventory Delete permissions can now successfully add sites and components.
- New site roles can now be created and saved successfully on the site permissions tab.

Work

- Fuel-specific data fields now save successfully for work items.
- The “Work Analysis” page now successfully copies work items into the “Work Plan.”
- Work items are now created successfully on the “Work Plan” page.

Feature Updates & Improvements

Inventory

- The “Delete Group” popup now asks “Are you sure you want to delete this group?” to match other “Delete Item” prompts.

E-SMS Version 1.10.621

No new release notes were required for this E-SMS version.

E-SMS Version 1.10.622

Bug Fixes

Inventory

- Users can now successfully navigate away from an inventory detail page when changes are pending.
- An “Expand Map” button now lets users toggle maps on the Site, Asset, and Component Search screens to a full-screen view or collapse them back to their original size.
- Users now cannot set component measurement units that are incompatible with the specification’s unit of measurement. Unit conversions are also now performed during rollups.
- When creating assets and selecting “Computed,” the cost source field no longer reverts to “User-Entered.”

Work

- Selecting a work item from the Work Plan no longer collapses the “Work” section in the side navigation.

E-SMS Version 1.10.623

Bug Fixes

Inventory

- Users can now edit component specifications on the “Edit Component” screen.

Feature Updates & Improvements

Assess

- The “Create Assessment” popup now has a “Continue to Assessment” button which brings users to the “Edit Assessment” screen.

Inventory

- The “FCI by Domain” section is no longer displayed on the Organization and Site Detail.
- Users with write access at the site or asset level can now create and modify groups.

E-SMS Version 1.10.624

Bug Fixes

Inventory

- While creating assets, the “Domains” field now stays populated after CatCodes are selected. Also, any selected CatCode remains populated when a domain field is selected.

Feature Updates & Improvements

Inventory

- The “Select” button on the “Select Country” popup now reads “Select Items” to match the “Country” filter on the “Site Search” page.
- The “Select” button on the “Select State” popup now reads “Select Items” to match the “State” filter on the “Site Search” page.
- The “Select” button on the “Select ZIP Code” popup now reads “Select Items” to match the “ZIP Code” filter on the “Site Search” page.
- The “Select” button on the “Select Climate Zone” popup now reads “Select Items” to match the “Climate” filter on the “Site Search” page.
- The “Select” button on the “Select Seismic Zone” popup now reads “Select Items” to match the “Seismic” filter on the “Site Search” page.
