

# SMS BUILDER 3.3.4 Release Notes

2019-03-12 - Gershwin Marks - Comments (0) - Release Notes

### **BUILDER 3.3.4:**

- Enhancement: Added RSL "shift factor" configuration to be honored by both scenarios and rollup
- Fix: "Average of numeric" functionality assessments now work
- Fix: Changes to component sections now save every time
- Fix: BUILDER no longer erroneously reports an error when exporting images when no images have been added
- Fix: Scenarios can again be restricted to run only for selected systems
