Sustainment Management System Support

SMS BUILDER 3.6.7.2 Release Notes

2024-04-16 - Daniel Marcuccilli - [Comments (0)](#) - [BUILDER Release Notes](#)

Release Date: 06/15/2023

Updates to CERL hosted sites will be scheduled with individual customer leads. Self-hosted customers and licensing partners can receive installers on or after the release date.

BUG FIXES:

- Users can edit and update all Building-level comments as needed.
- Users can now review Component section status ID data in the BUILDER API, regardless of a section's status.
- Users can now update component sections in BRED even if the Component section status ID is left blank.
- Facility updates made through BRED will now apply when the "Unable to Inspect" dropdown does not have a value selected.
- Users will no longer experience PRV values being overwritten in BRED imports when the "PRV Overwrite" box is checked.
