

SMS BUILDER 3.6.8 Release Notes

2024-04-16 - Brandon Athey - Comments (0) - Release Notes

Release Date 04/16/2024

Updates to CERL hosted sites will be scheduled with individual customer leads. Self-hosted customers and licensing partners can receive installers on or after the release date.

BUG FIXES:

- Users can employ API calls to initiate Scenario Starts.
- Folder contents for Complexes are listed in alphanumeric order.
- Multiple file types are compatible with BRED Package exports, including JFIF, FPE, and Excel. Previously, failures would occur when unexpected file types appeared in the exported data.

NEW FEATURE:

- Users can add up to 3 decimal place values for Section and Facility-level quantities.

NEW FUNCTION:

- Users can view Category Codes in the Facility Summary section if they do not appear in the Building General info pane.
